## PROFESSIONAL SUMMARY

Application developer with a track record of working in rapidly changing environments, while adapting and learning quickly to accomplish team-oriented tasks. I am eager to transfer my skills to a similarly exciting and evolving industry, while also expanding on my existing programming comprehension with a reputable organization. I am seeking an entry-level role as a junior developer. It is my hope to learn and grow to a senior level or higher within the organization and become a primary contributor that the organization can rely on.

## TECHNICAL SKILLS

• JavaScript • React.js • Unit testing • JEST • MERN Stack • JSON Web Tokens (JWT) • Responsive Web Design • Communication and Interpersonal Skills • Apollo GraphQL • Agile Software Development • MVC Architecture • HTTP Server Configuration • Client-Server Architecture • Wireframing and Mockup Design
